Work History

Apr 2020 - Current

Senior Software Engineer

Procore Technologies Inc., Las Vegas, NV

- Led software development of workflows platform feature initiative as subject matter expert and primary point-of-contact for project management staff.
- Trained and mentored junior developers and engineers, teaching skills Ruby on Rails and working to improve overall team performance.
- Worked with project managers, developers, user experience designers and customers to deliver quality software.

Sep 2018 - Apr 2020

Software Engineering Manager

Procore Technologies Inc., Carpinteria, CA

- Drove high-level strategic planning of development efforts for workflows platform features to optimize resource utilization and shorten development times.

- Cultivated partnerships between engineering, product and UX personnel to create holistically designed final products.
- Communicated with hiring managers to deliver feedback on candidate's performance.

Mar 2015 - Sep 2018

Software Engineering Manager

Procore Technologies Inc., Carpinteria, CA

- Communicated regularly with customers concerning data exchange and technology integration.
- Collaborated with cross-functional teams to develop construction financials contracts and change management features into finished products.
- Directly interacted with high-level customers to verify satisfaction and integrate feedback on in-process development projects.

Jul 2010 - Mar 2015

Software Engineer

Procore Technologies Inc., Santa Barbara, CA

- Collaborated with senior developers to design and implement new features using Ruby on Rails.
- Contributed to frontend development by creating responsive and user-friendly interfaces using HTML, CSS, and JavaScript.
- Assisted with migration of version control system from SVK to Git.

Education

Sep 2005 - Jan 2011

Bachelor Of Computer Science: Computer Science

University of California, Santa Barbara - Santa Barbara, CA
